Dear Parents,

Please understand that the safety of your child is of primary importance to us. Please make sure to explain to your child not to leave the children's program until you come to pick him/her up. If your child does leave without permission, we are not responsible for his/her safety.

Please make sure to notify the head staff and counselors of any specific issue or allergy your child might have.

All children's programs will take place on the 2nd floor.

All children's meals will take place in Room 7. Parents will not be permitted in children's dining room during meal time.

We are confident that your child will have a Shabbaton experience to remember!

Thank you for your cooperation.
